1 Introduction

This guidance document provides an overview of the process to be followed by Specialist Echocardiographers who wish to apply for registration with the AHCS.

All AHCS registrants are required to renew their registration on an annual basis. The registrant will receive an email notification 60 days before their renewal date advising that their registration is due for renewal. Reminder emails will be sent weekly, beginning 30 days before their renewal date, unless renewal has been made.

If a renewal application has not been submitted within 30 days after their renewal date, the registrant will be removed from the public register but may be reinstated upon application.

2 Your AHCS Account

To begin your registration application, you first need to create your AHCS account. Please select the link below to join the Specialist Echocardiographer Register or to access your AHCS account if you are returning to the AHCS registration portal.

[Login or Join - Applicant Portal \(ahcs.ac.uk\)](https://www.ahcs.ac.uk)

You will be presented with the following screen.

The screenshot shows the AHCS registration portal. At the top, it says "Welcome to the Academy for Healthcare Science" and provides the website "www.ahcs.ac.uk" and email "e: registration@ahcs.ac.uk". The AHCS logo is on the left, and a "professional standards authority accredited register" badge is on the right. The main content is split into two columns. The left column is titled "Join the AHCS Register" and includes a sub-header "Want to join the AHCS Register? Create your account below." It has input fields for "First name", "Last name", "Email Address", "Password", and "Confirm Password". A "JOIN" button is at the bottom. The right column is titled "Already Joined? Login here." and includes a sub-header "Please use the form below to sign-in to manage your application and account details." It has input fields for "Email Address" and "Password", a "LOGIN" button, and a "Forgotten password? Reset" link. At the bottom left, it says "© 2024 AHCS" and at the bottom right, there is a "Privacy - Terms" link.

Your email address will be your AHCS Username, and you must set up a secure password. If you have already set up an AHCS account but have forgotten your password, select '*Forgotten Password*' to receive a temporary password which you must change subsequently.

All new applicants are required to verify their email address.

Click on the link in the email you receive to verify your email address. If you are unable to access your account, please email registration@ahcs.ac.uk.

3 Your Personal Profile

All registrants must set up their core **Personal Profile**. Your profile details are common across all applications you might make to the AHCS.

You will be presented with the following screen which includes your Applicant ID number. Your name and email address will have been pre-filled.

Incomplete fields are highlighted in red. Please ensure that all the remaining information and data we require is complete and up to date. This includes your personal contact details, including your home address and email address.

If necessary, you may also change your password on this screen.

The screenshot displays the 'Edit Profile' page in the AHCS Applicant Portal. At the top, a warning message states: 'Warning: You need to complete your profile in order to continue.' Below this, the applicant ID is shown as 52412. A green 'Thank You' message reads: 'Thank You. Joining a Register or Directory shows your commitment to high standards and patient safety.' The 'Profile details' section contains the following fields: Salutation (dropdown menu), First Name, Last Name, Email Address, Date of Birth, and Nationality. The 'Home Address' section includes a search bar and fields for Address Line 1, Address Line 2, Address Line 3, Town, County / Region, and Country. Several fields are highlighted in red, indicating they are incomplete or require attention.

When you have completed all your details, select **“Update Profile”**.

If any subsequent changes are required to the Profile section after it has been submitted, you will need to contact the Administration Team at registration@ahcs.ac.uk with the required changes.

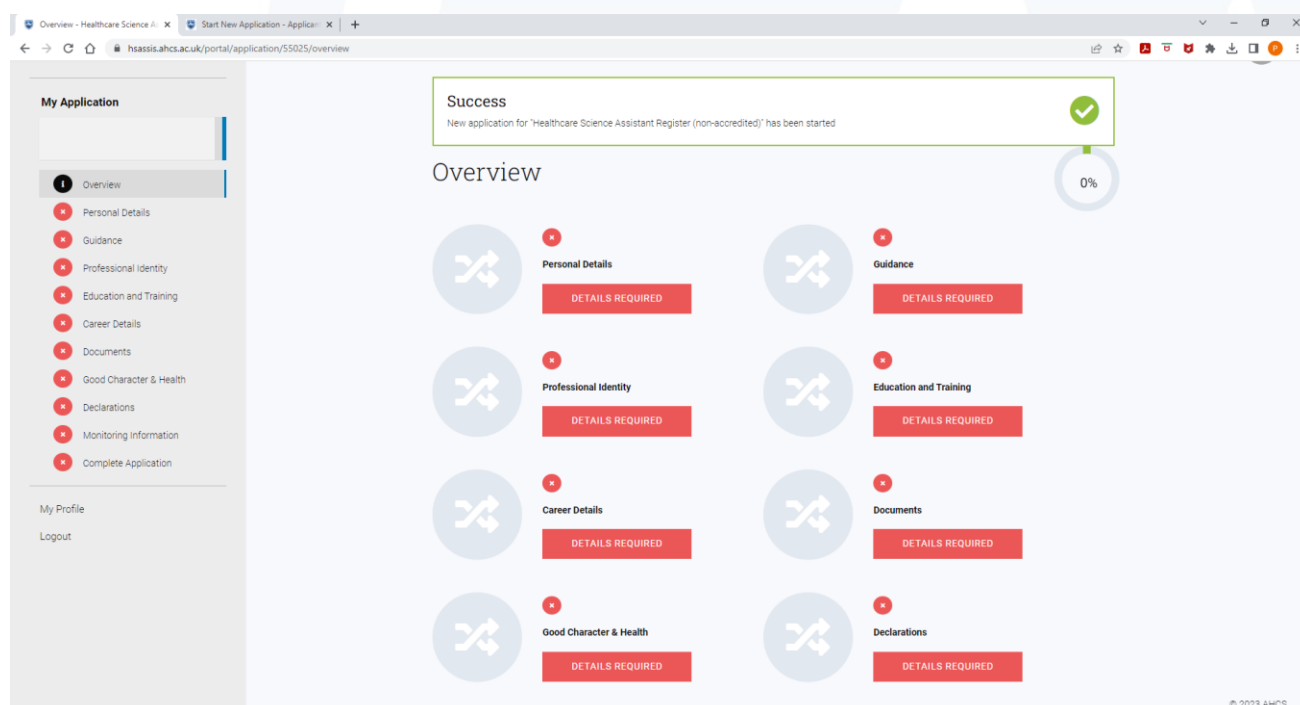

4 Your Registration Application

When you first log in to your account you will be able to begin your registration application via your AHCS account Dashboard by selecting “*Start Application*”.

Subsequently, when you log in, the Dashboard will present a list of your current AHCS applications.

The following screen will be displayed. It provides an overview of all the sections which must be completed before you submit your registration application.

Any section highlighted in red is incomplete. Select each section in turn and complete the requested information.

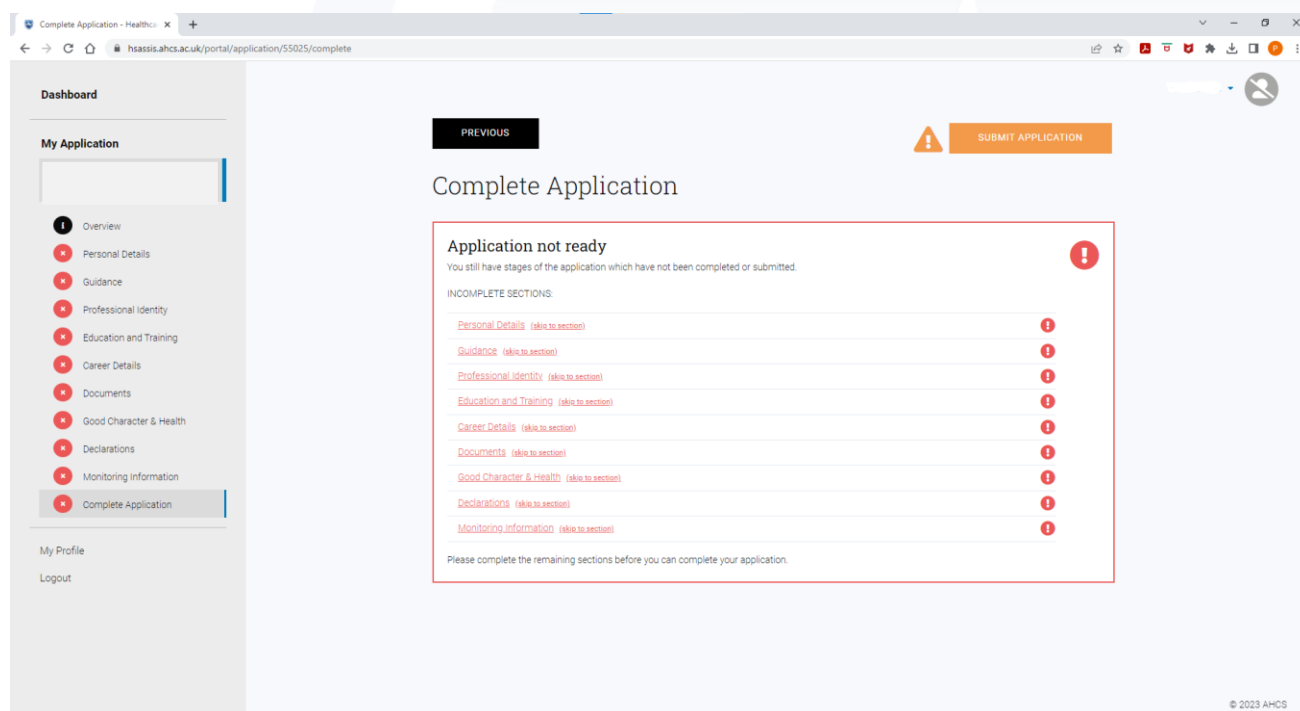

The guidance included in each section is self-explanatory, but if you have any questions, please contact the Administration Team at registration@ahcs.ac.uk.

When all information has been input in each section, select “*Complete*” and move to the next section. Otherwise, you can save the information and complete the section later.

5 Completing your application

The final section provides a summary of all sections and will highlight in red where there is any incomplete information in your application.

When all sections have been completed, select '*Submit Application*'. You will receive a confirmation email that your application has been received for review by the Administration Team.

Successful applicants will be notified by email, which will also advise how you can download and print your registration certificate. Your details will be included on the public Specialist Echocardiographer Register which will be available to search through the AHCS website.

As an AHCS registrant you are required to undertake Continuous Professional Development (CPD) and submit evidence of that upon request by the AHCS Registrar. The AHCS undertakes a CPD audit for 3% of its registrants, selected at random, at least every two years.

A key objective of the AHCS is the maintenance of patient safety. A concern or complaint received about a registrant will be subject to the AHCS Fitness to Practise procedures as set out on the AHCS website.

6 Registration Fees

The following fee schedule applies for applications to this register in 2024/25:

- Applications received before 2nd of November 2024 – a fee of £30
- Applications received after 2nd of November 2024 onwards – a fee of £40

All Registrants are required to pay an annual renewal fee to remain on the register. The annual renewal fee is £40.

Payment of fees to the AHCS is made by a Direct Debit set up through the GoCardless online payment portal.

7 Questions or concerns

If you have any questions or concerns about completing a registration application, in the first instance please contact the Administration Team at registration@ahcs.ac.uk.
