

April 2023 Regulation Board Meeting Summary

The Regulation Board noted that the register and directory numbers have increased. The Orbital Prosthetist Directory is now open for applications. The renewal of registration for Genetic Counsellors opened 1st March 2023 and Clinical Physiologists on the RCCP platform are completing the annual renewal of registration in April 2023 for the new registration period 01.05.23 to 30.04.24.

The Education, Training and Standards Committee updated the Regulation Board with the minutes from the recent committee meeting and advised that the STP assessment has been refined. The Committee is now preparing for the HCPC renewal.

Fitness to Practise case numbers remain steady and active cases are progressing.

The Registrant newsletter is being reviewed for a new look to be released later this year and the next Leadership Journal is in preparation, with some great articles already being drafted. A new AHCS website will be launched later this year.

Following the submission of AHCS' annual renewal of accreditation, the CEO led the Regulation Board in a training session focused on the importance of PSA accreditation.

The Regulation Board reviewed the annual KPI report and discussed KPI's for 2023/24, and contributed within the group workshop focused on managing risk and the re-development of the risk register.
