1 Introduction

This guidance document provides an overview of the process to be followed by Healthcare Science Associates who wish to apply for registration with the AHCS.

All AHCS registrants are required to renew their registration on an annual basis. The registrant will receive an email notification 60 days before their renewal date advising that their registration is due for renewal. Reminder emails will be sent weekly, beginning 30 days before their renewal date, unless renewal has been made.

If a renewal application has not been submitted within 30 days after their renewal date, the registrant will be removed from the public register but may be reinstated upon application.
